GLOBAL LEADER IN THE FAN INDUSTRY

TWIN CITY FAN COMPANIES, LTD. IS A FAMILY-RUN GROUP OF FAN COMPANIES THAT MANUFACTURE A FULL SPECTRUM OF AIR MOVING EQUIPMENT ACROSS THE GLOBE.

We are a group of the most trusted brands in the fan industry. Our ability to design, test and deliver products within very tight time frames are among the many differentiators that separate Twin City Fan Companies, Ltd. (TCFC) from other fan companies. TCFC continues to be extremely successful at translating new ideas to innovative solutions and has aggressively expanded its product offerings to provide the most extensive line of HVAC equipment in the industry.

WHY TWIN CITY FAN COMPANIES, LTD.?

HIGH QUALITY MANUFACTURING AT EVERY STEP OF THE PROCESS

We offer a wide choice of construction materials and accessories including fiberglass, stainless steel, aluminum, hot-dip galvanized steel, abrasion and spark resistant alloys, along with numerous protective coatings. We know the importance of options for specialty applications.

You are not only getting the fan design that your project demands - you're getting a complete package of customized solutions. "Mass-customized" means you get cost efficiencies from an incredibly broad range of standard products, plus project-specific flexibility that allows us to build on and customize our exceptional offerings.

PRODUCTS FOR EVERY MARKET & APPLICATION

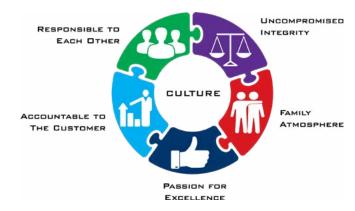

Product Range: - Centrifugal, axial, power roof ventilators, fiberglass fans and wall mounted fans

- Plenum fans, pressure blowers, mixed flow, air make-up units and more

Applications: - From heavy-duty industrial material-handling to commercial supply and exhaust fans

Proven track record with thousands of global installations

1,5 D D + customer-obsessed employees

ON-GOING PROJECT SUPPORT

SUPERIOR FAN SELECTION SOFTWARE

Our fan selection software is designed to raise the bar for fan system configurations. The software offers a dynamic interface that supports both standard and highly-engineered fans. Whether in the commercial or industrial market, Fan Selector is robust enough to handle the application. Our highly-intuitive software quickly allows the user to navigate through selection, configuration and quotation.

- Easy-to-use interface
- Multiple selection methods
- Performance curves
- Instant drawings

COMPREHENSIVE INDUSTRIAL AND COMMERCIAL PRODUCTS RANGE

FIELD SERVICE

Keeping existing fans operational is crucial to any business. At Twin City Fan Companies, our on-site field service personnel can provide many types of service, including basic inspections, maintenance, troubleshooting, repairs and in-depth analysis. We'll keep your unit performing as it should to prevent costly down time, no matter the manufacturer.

- Installation and commissioning
- Motion amplification
- Non-destructive evaluation
- Preventive maintenance
- Troubleshooting service
- Vibration and spectrum analysis
