## **Twin City Fan Companies, Ltd. Announces New Chief Operating Officer, James Larson**

MINNEAPOLIS, MN — Twin City Fan Companies, Ltd. (TCFC), a privately-held global leader of air moving equipment manufactured in South Dakota and Tennessee, today announced the hiring of James Larson as the new Chief Operating Officer (COO).

Larson will lead our efforts to drive operational excellence across TCFC, positioning the company for continued growth and success in today's dynamic business environment.

"Strengthening our operations and fostering innovation will drive Twin City Fan's continued success. With James Larson's leadership, we'll enhance efficiency and remain an industry leader," said Michael McCann, President of Twin City Fan Companies, Ltd.

A South Dakota native, Larson earned his Industrial Engineering degree from the South Dakota School of Mines and Technology. He brings 34 years of extensive experience in manufacturing, product design, account management and supply chain to TCFC, with a proven track record of driving operational excellence, continuous improvement and building strong teams.

"I'm thrilled to join Twin City Fan and eager to immerse myself in this business. This company has a rich history of serving its customers with excellence, and I look forward to working alongside our team and partners to build on that success," said Larson.

Most recently, Larson served as President of Cass Precision Machining, where he led efforts to improve customer experience and financial performance while developing a high-performing team. Prior to that, he held significant leadership roles in both privately held and publicly traded manufacturing organizations, consistently focusing on enhancing processes, strengthening relationships and delivering results.
